In 2006, when I have set up the CLIZA LAW OFFICE, I could have never imagined the magnitude of the projects in which the office will be involved. Today, after more than 10 years of activity, CLIZA LAW OFFICE is a very well situated law office with a solid reputation that allows us to represent and assist clients both on national and international levels.

I consider that this success was not arbitrary, because every step was thought very carefully.

Although our success is transparent, clear and well appreciated on the legal market, I am aware that this success is binding on our dynamic team for the future projects.

I would like to take this opportunity to thank our clients, friends and family for all the support we have received during these years, because without them this would have not been possible. Thank you for your confidence!

Hereinafter I will let Laura to introduce you to our work and to our team!

OUR TEAM

Laura SPATARU-NEGURA, Ph.D.
Managing Associate

CLIZA LAW OFFICE is an independent law office, based in Bucharest, Romania. It is renowned for its expertise and experience in dispute resolution, especially when dealing with administrative law, as well as for offering good quality legal assistance for companies' day to day activities.

Clients include public authorities, multinational corporations, small and medium sized companies acting in different sectors and from all around the world, as well as individuals.

Our young team of approximately fifteen people covers a great range of legal domains both in consultancy and dispute resolution. Our main legal practice areas include real estate, corporate, mergers and acquisitions, environmental law, employment, projects and infrastructure, intellectual property and data protection, transportation, pharma industry, banking and finance, energy, insurance, competition and consumer law. This dynamic and highly qualified team offers specialised and personalised advice in each case.

The working languages, besides Romanian, include English, French and Spanish. Depending on our different projects, we envisage to develop foreign

language desks for serving the needs of our clients.

Besides our team, we have developed an extensive network of specialists in Romania and around the world in order to ensure that client needs are satisfied. For example, in Romania we have two attorneys at law, with a solid reputation on the legal market, with whom we collaborate on different projects, especially in cases involving criminal law issues.

We have to emphasize that we care for the Earth and we are fighting to pass this green legacy to our kids. This is why we are very proud for our corporate social responsibility projects. We have an active involvement in the community (e.g. pro bono work, initiatives designed to promote legal education, donations to assist various charities, educational programs and law students). Additionally, we are committed to reducing the environmental impact of our work (e.g. reducing paper use through electronic archiving and default double-sided printing, reducing energy consumption by automatic hibernation of computers, favouring electronic means of communications, including Skype and conference calls over travel whenever possible, using low energy bulbs, systematic recycling).

Thus, if you consider that we are the partner you were searching for, we look forward to working together!
